The Amazon Essence is a pivotal transformational remedy easing one from the old dynamic to the new and connecting us back to the energy and wisdom of Gaia.

THE AMAZON ESSENCE

This, the third Light Frequency Essence, was made in the Botanic Wilderness National Park, Nova Airum, Brazil on the shore of an island on the Rio Negro River, one of two rivers that later join to become the Amazon River. This island is situated in the biggest archipelago in the world. Behind me was impenetrable jungle, metres away in front of me in the river were pink dolphins that I swam with. There was a tremendous sense of lightness and peace in this very isolated location.

Currently vast old, stored energies from deep within the Earth are being released, especially in the Amazon, as part of the awakening of Gaia. This is creating an upsurge of energy across the whole planet, a movement trying to re-connect with spirit. The pulsing heart of the planet is getting stronger and this remedy is helping us to feel and be aligned to it.

It is a very exciting time that we are on the threshold of, and the Amazon Essence is a valuable tool that we can use to help make it a smooth transition.

Much Love, Light and Respect

One of the main aspects of the Amazon Essence is its ability to help you to be aware of, tune into and prepare for the immensity and the totality of the massive changes that are happening in nature.

The Amazon Essence is helping to activate our brain to function in new ways and for our senses to perceive afresh, enabling us to comprehend and interpret all the old, primordial energies being unleashed and coming up from the rocks, the water, the trees and from deep within the Earth. This remedy enables us to re-align to these very strong energies which are very different to what we are used to as they are a link back to the time before humans, before life.

Now is also the time for sacred sites and portals

on the Earth, which have been closed down for a long time, to open and be released, along with a releasing of the very ancient beings' memories that have been held in nature. This is liberating a great deal of stored knowledge, energy and information as Gaia is releasing the next level of wisdom. This is what the new children are tapping into and will bring through as well. The Amazon Essence assists us to read and speak this new language of nature.

Ever since the Atlantean time the Elemental Kingdom has been withdrawn from humanity, resulting in very little energetic connection, at a conscious level, with humanity. This has been a missing link in a natural cycle of the Earth. Gaia is now once again allowing the elemental energies to be felt, heard and sometimes even seen. She is giving us stimulation to bring our focus back towards nature. The Amazon Essence strengthens our connection to the Elementals and the natural world.

The Amazon Essence allows one to access a doorway to consciousness that is beyond matter, to be in the world but not of the world. When you go beyond matter then you step into the expansion of all that is, you can feel it, be activated by it and hold it, all of which expands your own light. This Essence can aid a person move through the dimensions but not be attached to the dimensions of matter. It allows you to flow more easily through life, to be effective and active but not attached on the emotional or mental level to the appearance of what is, but rather, to understand the significance of what is. In this state one builds up an aura of love and acceptance and this is where humanity is moving towards.

The Amazon Essence anchors within us the divine feminine, bringing in the stillness and calmness, and the divine masculine, which is the celebration of life itself, the joy, vitality and enthusiasm of being alive. This remedy activates the built-in will to appreciate, respect and protect all life; to live in community with the benefit of all in mind. This Essence can be particularly effective to help you work constructively and creatively to bring about environmental balance and harmony, connecting us back to the energy and wisdom of Gaia.

Preparation: This Essence is available in Stock strength. To prepare a dose bottle add 7 drops to a bottle up to 15ml containing 1/3 brandy and 2/3 purified water.

Dosage: 7 drops of the dose bottle are taken under the tongue on rising and retiring, usually for at least 2 weeks. We recommend taking the Essence on its own, not mixing it with other Essences.
